TECHNICAL SKILLS

- **Languages:** Python, JavaScript, HTML, CSS
- **Frameworks:** Django (Django Rest Framework), React
- **Technologies:** CSS (Tailwind CSS), HTML, AWS S3, PostgreSQL, Git

ACHIEVEMENTS

Backend Development Certification, HNGX, 2023

Certifications:

- Backend Development Certification, HNGX, 2023

Skills:

- Strong problem-solving abilities
- Excellent teamwork and communication skills
- Proficient in Docker and CI/CD pipelines

Education:

- Senior School Certification

SUMMARY

Passionate and dedicated Python and Django developer with a robust background in creating scalable web applications. Proven problem-solving skills and meticulous attention to detail, consistently delivering efficient and optimized solutions. It thrives in dynamic, collaborative environments, demonstrating strong communication skills within cross-functional teams. Experienced in developing RESTful APIs, optimizing application performance, and adhering to industry best standards. Proficient in various Python frameworks, including Django and Django Rest Framework. I am committed to continuous learning to stay abreast of the latest advancements in the Python ecosystem. Experienced in building Docker images and managing Continuous Integration (CI) pipelines for automated quality testing.

EXPERIENCE

HNG - Backend Engineer

09/2023 - 10/2023

- Developed the authentication system and other features on the backend.
- Designed and implemented authentication pages on the frontend.
- Ensured the responsiveness of web applications.
- Collaborated with cross-functional teams to deliver high-quality projects

Techegy Universal Limited - Backend Engineer

2019 - 2023

- Led requirement gathering, analysis, design, estimation, and testing of tasks in open stack.
- Reviewed Python code for troubleshooting test cases and bug issues.
- Utilized version control systems such as Git, GitHub, Heroku, and Amazon EC2.
- Proficient in Python modules like requests, urllib, urllib2 for web crawling.
- Developed views and templates with Python and Django for a user-friendly website interface.
- Implemented Django framework for web applications following the model-view-control architecture.

PERSONAL PROJECTS

Mean App

- AWS S3, React, and Tailwind CSS used for image compression, file format conversion, and file resizing.
- [GitHub Repo](#)

Economic

- Django project for managing products, categories, user accounts, and orders.
- [GitHub Repo](#)

Video Recording

- Django-based application for uploading and combining video chunks.
- Handles large video uploads by breaking them into smaller chunks.
- [GitHub Repo](#)

My-React-Portfolio

- React Portfolio built with the React JavaScript framework.
- [GitHub Repo](#) | [Live Server](#)

Sincerely,

Okanlawon Abolaji Olatunde
